

8.4" TFT LCD

- Crisp analog to digital conversion
- Low noise single inout switching power supply allows board and LCD subsystem to run off 12 volt

MTR-MBL H8 is a fully adjustable, ruggedized, LCD monitor with optional resistive or capacitive touch screen. Each monitor includes a fully articulating ball joint arm that allows for front to back, left to right and diagonal adjustment. The MTR-MBL-H8 includes a VGA input LCD controller which allows for the LCD to be driven directly from a VGA source.

Possible applications include video for automobiles, process manufacturing, point of sale and security applications.

FEATURES:

Superior Viewing Angles, Contrast Ratio and Brightness
Desktop or wall mount
Optional Base plate stand (sold separately)

INCLUDES:

LCD Monitor
Monitor to PC Signal Cable
AC Adaptor
Power Cord
Users Manual
Fully adjustable Panavise Tilt Stand
